

Attention All Pet Owners,

The association has recently received multiple complaints from property owners regarding an increased volume of dog waste. Not only has it been found on the streets and common areas but also on private property. Failure to clean up after your pet is a violation of Red Lodge Municipal Code 5-5B-5.

Additionally, many dog owners have been observed walking their pets unleashed. Complaints have also been received regarding uncontrolled dogs owned by contractors working within the association. Red Lodge Municipal Code 5-5B-1 states that owners are responsible to keep dogs leashed or within a physical enclosure at all times.

Violations of these codes can result in penalties and fines from the City of Red Lodge.

The RLCCEPOA Board of Directors works diligently to maintain our property values and safety. Please be courteous of your neighbors: clean up after your pets, keep your pets leashed, and if you have a contractor working on your property, ask them to be considerate as well.

Thank you,

RLCCEPOA  
Board of Directors
